DETAILED SCHEDULE

Part III. Policy round-table:

Policy implication for pension design of life-expectancy differential

15:30–16:00 *Cross-country evidence on life-expectancy gradient*

16:00–18:00 *Life-expectancy and health inequality for designing pension reform*
Policy round-table chaired by Antoine Bozio (PSE, EHESS, IPP)

Cathy Payne

Deputy Director, Department for Work and Pensions (UK)

Cathy Payne has had an extensive career in the UK civil service working on a range of social policy issues. She currently has responsibility for the UK State Pension policy and recently led the last Government review on State Pension age.

Ole Settergren

Head of the Analysis Department, Pension Agency (Sweden)

Ole Settergren had a key role in the major Swedish pension reform in the late 1990s. He was one of the main architects behind the Notional Defined Contribution plan that was implemented after the reform. Since the reform, he has held different positions at the Swedish Pension agency. He is currently Head of the Analysis Department.

©CHAM

Franck von Lennep

Head of Social Security Department (France)

Franck von Lennep is the current director of Social Security (DSS), the French Department in charge of health care financing, social benefits, workers' compensation and pensions. Between 2017 and 2020, he was chief of social affairs in the French Prime Minister Office in charge of supervising social policy, including pension reforms.

Johannes Spinnewijn

Professor at the London School of Economics (UK)

Johannes Spinnewijn is Professor in Economics at the London School of Economics. His research focuses on various topics in public economics, including the design of social insurance and pension systems.
